

Walk-In Nursing Note

Synthetic demo document - no real personal data

Triage narrative for Ana Santos (PAT-3001), 18 May 2026.

The patient reports chest pressure, shortness of breath, and pain radiating into the left arm since earlier today.

Recorded blood pressure was 168/102 with heart rate 96. The triage nurse requested urgent medical review and cardiology follow-up because acute coronary syndrome must be ruled out.
